

## Market Release Note

MRN-DLX900 V5.16.18

---

Product number: DLX900  
Product version: V5.16.18  
Release date: 27<sup>th</sup> July 2022

## Bugs/Enhancements Resolved/Closed

The following issues were addressed in this release

ID	Type	Description
XC-1122	DLX900	Fixed inconsistencies in configuration data when connected to NXX-8 AU panel
XC-1123	DLX900	Fixed inconsistencies in configuration data when connected to NXX-4 AU panel
XC-1125	DLX900	Fixed the number of displayed zones when connected to version 09-40 of the xGenConnect panel

## Known Issues

The following issues are known in this release

ID	Status	Description
XC-1125	Minor	The DLX900 software can intermittently failed to send menus to version 9-38 of the NXX-8 panel
XC-1126	Minor	Some configuration pages such as Device info/System timer/Download access code/Service time/UltraSync pages can intermittently display the wrong information on first connection after changing panels or switching between existing accounts with version 9-38 and 9-40. It is advised to close all Device info/System timer/Download access code/Service time/UltraSync windows and select "Retrieve all data" when switching from a device with version 9-40 firmware to another device with an older firmware version.
