

## Market Release Note

MRN\_TECOMPLUS-2.0.5

---

Product number:	TecomPlus
Product description:	TecomPlus mobile app
Product version:	2.0.5
Release date:	1 September 2021

---

Aritech is pleased to announce the immediate availability of the next version of the TecomPlus mobile app, featuring support for ChallengerPlus systems fitted with a TS1084 IUM, NAC door overrides, and other improvements.

### New features

- Door Override for NAC doors (auto lock / unlock schedule)
- IUM users now supported (will appear as user numbers instead of names)

### Improvements

- Arm all / Disarm all
- Sort user list by user number
- Input status indicator when unsealed (orange)
- Optimisations to history event retrieval
- Improved button responsiveness when tapped
- Alarm group list is now restricted to only show user-selectable alarm groups

### Resolved Issues

- Added new card formats "Verex 36 bit" and "Verex 40 bit"
- Corrected error when calculating card data for "HID ISCS 38 bit" format
- Resolved DVR connectivity issues with iOS
- Keyboard on iOS should now close automatically when exiting search
- Fixed app crashing when using a site code with leading zeroes
- Resolved an issue where attempting to connect to Challenger10 firmware would not present an error
