

Unified video, access control, intrusion and network management security solution.

# TruVision® Navigator

# More than just video management

# Intuitive. Powerful. Integrated.

TruVision® Navigator takes Aritech integration to the next level. More than just video management software, TruVision Navigator now brings Aritech commercial offerings—video, intrusion and networking—together as one integrated solution.

## One solution for multiple applications

Ideal for small to mid-size applications, TruVision Navigator provides powerful centralised and remote management capabilities, so you can manage every aspect of your Aritech-based security system, easily and effectively.

## Robust capabilities simplify operations

Feature-rich and easy to use, TruVision Navigator helps to streamline operations in high-volume installations, providing practical and reliable surveillance, even in challenging environments.

## Expands to meet your needs

TruVision Navigator is a fully scalable solution that can be used as a standalone application, or deployed in a server/client environment.

## A high-quality and affordable solution

With no service or maintenance agreements, TruVision Navigator is a reasonable, yet robust commercial security solution. By integrating TruVision video, UltraSync® intrusion and IFS® network switches, TruVision Navigator provides an enhanced situational awareness environment via a unified security solution.

# Operator-Friendly User Interface

TruVision® Navigator brings together TruVision video, UltraSync® intrusion and IFS® network switches into one complete interface.

## Device Tree

Provides quick access to TruVision video cameras and recorders, UltraSync intrusion and IFS network switches.

## Facility/Campus Maps

Import facility/campus maps and place cameras, access control doors, and intrusion sensors on maps. Easily embed maps within maps.

## Notifier

Provides real-time, color-coded video event notification of UltraSync alarm events.

## Viewer

View live and recorded video with up to 10 detachable video viewing tabs allows you to create a virtual video wall. The pop-up event monitor window provides live video during an alarm. Users can easily setup individual video viewing tiles for sequencing of multiple cameras for easy monitoring.

## Video Playback Controls

Easily play, pause, rewind and bookmark video recordings with controls and timeline.

## People Counting Camera

Provides public safety and comfort by counting the number of people who pass through entrance and exit.

## Collector

Acts as a holding repository for video segments, snapshots and local recordings ready for export.

## Built-in Device Manager

Easy wizard based tool to easily activate and set-up your system. Perform global password changes and automatically notifies you of firmware updates on all your networked TruVision devices.

## Feature rich for improved functionality.

TruVision® Navigator 9 provides added convenience and improved functionality to the TruVision platform. Easy to install and maintain, the updated software delivers a unified video, access control, commercial intrusion and network switch integrated solution designed to streamline operations for commercial security applications.

### User-friendly interface

TruVision Navigator 9 brings together video monitoring, UltraSync® intrusion, and IFS® network switches into one centralised interface. Robust and easy to use, the software's key features include up to 10 video tabs, custom views, facility/campus maps, live event monitoring, video playback and 360° camera de-warping.

### Scalable and compatible

TruVision Navigator 9 is a 64-bit application with GPU support offering high performance on a properly equipped computer. The application is also a fully scalable solution that can be used as a standalone application, or deployed in a server/client environment.

TruVision Navigator 9 also supports integration with other Aritech hardware platforms such as UltraSync intrusion and IFS network switches.

### High-quality and affordable

Available with no annual fee and no software maintenance agreements, TruVision Navigator 9 is an easy-to-use, yet robust, commercial security solution\*.

### Advanced Features

Easily customise TruVision Navigator with logical views and logical event filtering. Integrate UltraSync intrusion with TruVision video and link cameras to doors and sensors/areas to receive event notifications with video verification. Quickly discover devices on a local Ethernet/IP network with the built-in device manager tool.

\*Hardware for TruVision Navigator is sold separately.

### About Aritech

Aritech provides leading security and life-safety solutions for both commercial and residential applications covering intrusion, video, transmission and access. Offering some of the most-trusted product names in the industry, and backed by ongoing partner services and support, Aritech helps customers secure and protect what matters most. Aritech is a part of Carrier, a leading global provider of innovative HVAC, refrigeration, fire, security and building automation technologies. Follow us on LinkedIn @Aritech Australia.
